Glossary of Persons

MENTIONED IN THE JOURNALS

N.B. Not all the names listed in the Index are to be found in this Glossary. Servants, tradesmen, chance acquaintances, and others sufficiently identified in the text — together with the most famous in all domains—have been omitted here. Other names have simply resisted research.

Originally intended to identify the specifically French names that are presumably known to the author's compatriots, the Glossary has grown in the making to include all the persons about whom English-speaking readers might have questions.

Andr6 Gide and his friends have been most helpful in supplying information.
